

ALL NEW
**RENAULT KANGOO AND
KANGOO E-TECH 100% ELECTRIC**

4th April 2023

revolutionary from the start... and recognised for it

The innovative and functional design of all new Kangoo has already gained global recognition, including winning International Van of the Year 2022.

24 leading journalists specialising in commercial, industrial, and transport vehicles placed Renault's latest van in front of the 14 light commercial vehicles from 11 different brands that have also been released in recent months.

WhatVan? has also named all new Kangoo as the best van in its sector for the second year running thanks to its focus on safety and quality. Whilst WhatCar? has named all new Kangoo its Small Van of the Year thanks to its "space, the ability to carry greater payloads and economical range of engines".

the essentials

**payload
of up to
1000kg***

**up to
4.2 m³*
of loading
volume**

**easy
inside
rack****

**up to 186
miles
electric
range
WLTP**

**20
advanced
driving
assistance
systems**

*LWB versions.

** Retractable interior rack, available as an option.

1

1. easy inside rack* with a load length of 2.09m (SWB) or 2.51m (LWB)
2. 21.8 L overhead storage rack
3. 1.5 L dashboard storage with USB port
4. up to 4.2 m³ of loading volume and loading length of up to 2.23m**

2

easy loading

3

All new Renault Kangoo Van features equipment that is as essential as it is practical. In the loading area the easy inside rack* which folds down from the ceiling makes transporting long objects easier while leaving the floorspace uncluttered. This not only saves space but is also a safer way to store longer items than traditional roof racks. Thanks to a loading capacity of up to 4.2m³ together with its numerous clever storage areas, goods and equipment can easily be stowed away.

* retractable interior rack available as an option. **LWB versions.

1. permanent rear view, smartphone holder and wireless smartphone mirroring
2. easy link multimedia system with 8" screen
3. wireless charger

useful technologies

With the 8" easy link multimedia screen, you get connected navigation, with automatic updating of maps, traffic conditions and fuel prices. All new Renault Kangoo Van is also available with a wireless charger: together with wireless mirroring, you can view your messages and make calls while recharging your smartphone. For even greater safety, you can see what's happening behind your new Renault Kangoo Van thanks to the permanent rear view*, a fully-fledged digital rear-view mirror.

*All equipment optional.

1. charging flap
2. instrument panel with customisable 10" digital screen**

up to 186 mile range*

With all new Renault Kangoo Van E-Tech 100% electric, enjoy up to 186 miles range for your daily journeys. When driving, three regenerative braking modes extend your vehicle's driving range by recovering energy whenever you slow down or brake. Easily charge your vehicle with the 22 kw 80 DC charger. Connect your Renault Kangoo Van E-Tech 100% electric to a standard wall box to maximise your driving range in less than 7 hours. Short of time? Charge 80% of your battery in just 42 minutes on a Rapid Charger.

*WLTP figures shown are for comparability purposes; only compare figures with vehicles tested to the same technical procedures. The WLTP electric range shown has been achieved using the new (WLTP) test procedure. Figures obtained after the battery was fully charged. Actual real world driving results may vary depending on factors such as the starting charge of the battery, accessories fitted after registration, weather conditions, driving styles and vehicle load.

**optional

1. schedule recharging and heat up the passenger compartment remotely via the My Renault application

all new Kangoo E-Tech 100% electric, without compromise

Get all the advantages of Renault Kangoo Van while enjoying the benefits of 100% electric driving. Preheat the passenger compartment or start the air-conditioning with programmable temperature pre-conditioning via easy link, or do so remotely with the **My Renault*** application, while charging your vehicle. Start your day with a fully charged battery and a vehicle that's ready to go.

* depending on version. ^when charging on a Rapid Charge unit

20 advanced driving assistance systems

All new Renault Kangoo Van comes with twenty optional advanced innovative driving assistance systems. Tried and trusted, it promises a safe and secure driving experience.

rear view assist. Via a digital screen – instead of the interior rear-view mirror – you can view what the camera installed at the rear of your vehicle sees.

rear-view camera. It provides a rearward view on the easy link screen or the interior rear-view mirror when you engage reverse gear. Superimposed outlines make your manoeuvres easier and safer.

hill start assist. Combined with ESC, hill start assist maintains brake pressure automatically for 2 seconds to give you time to lift your foot from the brake pedal and press the accelerator. The system activates when the slope exceeds 3%. Available as standard on all models.

wide view mirror. Located in the passenger sun visor, it improves your vision and helps to minimise the effect of blind spots at Y-junctions. Available as standard on Advance models.

Grip Xtend. It allows you to drive in all weathers on different types of terrain (mud, leaves, rough roads, etc.). The system combines electronic stability control (ESC) and all-weather tyres to bring you enhanced traction, available at speeds of up to 30mph.

"zoning" function For locking or unlocking either the front doors or the loading area.

Hill start assist is standard on all versions. Wide view mirror is standard on Advance versions, all other equipment shown is optional.

highway and traffic jam assist. Adjust your vehicle's speed and trajectory to the surrounding traffic. Active between 0 - 100 mph, this system regulates your speed, maintains a safe distance between you and the vehicle in front and helps you stay in your lane. When traffic slows down, the vehicle automatically stops and restarts for greater comfort and peace of mind.

active emergency braking system with vehicle detection. This system detects vehicles to the side or in front, and stops the vehicle in the event of any danger. Driving in the city has never been so safe, day or night.

blind spot warning. Active above 9 mph, this system uses warning lights to alert you to the presence of vehicles that are not visible in your field of vision.

lane keeping assist. Active between 40 and 100 mph, this system corrects the steering wheel to return the vehicle to its lane if you ever cross a continuous or broken line without activating your indicator.

adaptive cruise control. This system helps you maintain a safe distance between you and the vehicle in front of you while driving. The system operates the brakes when the distance is too short and the accelerator when the road is clear again.

road sign recognition and speeding alert. This system informs you of speed limits via the instrument panel and alerts you if you exceed the speed limit thanks to a camera positioned at the top of the windscreen.

park assist systems. Driving has never been so easy. The front, rear and side parking sensors warn you with audible and visual signals when obstacles are close by. Hands-free parking performs all the manoeuvres for you. All you need to do is manage the speed.

sidewind assist. When there are strong cross winds or when a vehicle overtakes, it helps maintain your trajectory at above 40 mph.

trailer sway assist. Trailer sway assist helps you control your trajectory when towing a trailer. The system reduces its weaving without reducing speed, and improves road holding in difficult cross-winds or poor road conditions.

Sidewind and trailer sway assist as standard, other features shown are optional. Rear Park Assist is standard on Advance.

16" steel wheels

16" flex wheel trims

16" alloy wheel trims

upholstery

black fabric upholstery

black fabric cloth, with yellow accents*

*only available on Advance trim or with passenger bench seat.

accessories

1. **Premium wood trim.** The premium wood protection on the floors, wheel arches and side panels protects your Kangoo Van's loading area while keeping you safe.

Image shown is the factory ordered Premium wood trim. UK fitted options also available - speak to your dealer to discuss options and arrange a quote.

2. Aluminium roof rack. Transport up to 100 kg of equipment on the roof of your vehicle easily and safely.

3. Swan-neck towbar pack. Easy to attach, this towbar allows you to tow a trailer so you can carry everything you need for your work.

4. Rubber mats. Protect your passenger compartment floor with waterproof easy-to-clean rubber floor mats.

5. Front and rear mud flaps. Provide the lower body of your Kangoo Van with effective protection against water, mud and gravel.

Depending on options fitted WLTP figures may differ. Please consult with local dealer or refer to www.business.renault.co.uk/configurator for more information.

LCV service plan

		MRRP (inc VAT)
E-Tech	5 years /66,000 miles	£900
Diesel/Petrol	5 years /66,000 miles	£1,740

LCV extended warranty

		MRRP (inc VAT)
E-Tech	5 years /100,000 miles	£900
ICE	5 years /100,000 miles	£558

Service Plan Terms & Conditions The Service Plan offer is available on all LCV's. Valid at participating Renault dealers only and may be purchased up to 12 months after registration or before the first service (whichever is sooner). Vehicles must be ordered between 4 April to 3 July and registered by 31 December 2023.

The Renault Service plan covers the manufacturer's minimum maintenance programme requirements for the term of the Service Plan purchased (refer to the Warranty and Service sheet in the Handover Document wallet for details). The plan ends when you reach the age or mileage limit (whichever comes first). Services must be carried out in line with the manufacturer's minimum maintenance programme requirements and servicing intervals within +/-1 month or 1,000 miles of the service interval and can only be carried out at a Renault Approved outlet. Service plans do not cover wear and tear items such as (but not limited to) tyres, wiper blades or brakes. For Service plan full Terms & Conditions visit www.renault.co.uk/owners. Cannot be part exchanged, refunded or transferred. All prices quoted are MRRP.

Extended Warranty Terms & Conditions The Extended Warranties are available on all LCV's (excluding ZOE Van). Valid at participating Renault dealers only and are available to purchase from first date of registration and may be purchased up to 12 months after registration. For full Extended Warranty Terms and Conditions visit www.renault.co.uk/extensions-of-warranties

Front brakes: diameter x thickness / with electric parking brake (mm)		ventilated disc - D280 x 24/D29 x 26	
Rear brakes: diameter x thickness / with electric parking brake (mm)		9" drum / ventilated discs - D292 x16	
Tyres			
Tyre / wheel size		205/60 R16 / 16"	

(1) Fuel consumption and CO₂ emissions are certified using a standard, regulatory method. This method is identical for all manufacturers and enables vehicles to be compared. France data, excluding camber. (2) WLTP (Worldwide Harmonised Light Vehicle Test Procedures): this new protocol provides results much closer to those found in daily use compared to the NEDC protocol.

(1) The driving range depends on the configuration chosen. (2) The weights depend on the equipment chosen.

driving range

Inspired by innovations in research and development, Renault Kangoo Van E-Tech 100% electric pushes the limits of performance and efficiency. Its platform hosts a new fully usable 45-kWh lithium-ion battery and a 75 kw electric engine for a range of up to 186 miles.

thermal pre-conditioning

Controlled remotely using the **My Renault** application, this feature preheats the passenger compartment in winter and turns on the air conditioning in summer. Even better when the vehicle is plugged in: the energy needed is supplied without drawing on the battery.

regenerative braking

With All new Kangoo E-Tech 100% electric, the energy produced when decelerating or every time the brake is used recharges your battery.

eco mode

In urban situations, eco mode optimises battery capacity. Performance management for smoother driving that allows better energy recovery and maximum driving range.

charging

You have access to a broad range of customised solutions for charging at home, at work, on the road or elsewhere. All new Kangoo E-Tech 100% electric is delivered with a mode 3-type cable that can be used with a domestic or public charging station.

charging at work, at home or elsewhere

Charge All new Kangoo E-Tech 100% electric easily on the domestic grid using a domestic charging point,⁽¹⁾ a reinforced domestic power socket or a standard domestic power socket.⁽²⁾

With the **My Renault** application, you can check your range at any time; start your charge remotely or schedule it at off-peak times.⁽³⁾

At home, Renault offers you the convenience of ordering your 'Smart' home charging solution at the same time as buying your new Renault vehicle through **Mobilize Power Solutions**. **Mobilize Power Solutions** offers a value for money

solution* that covers everything from a home survey through to the charging unit, installation and a personalised app. You will be provided a quote upon completion of the initial survey, with no upfront cost.

on-street charging

Got an appointment somewhere? With the **My Renault** application, locate the public charging points closest to your destination. For longer journeys, get 30 miles of range in just 6 minutes at a rapid charging station.

type of facility	charge power	cable to be used	charging time 44kWh battery 20% - 80%
domestic charging point ⁽¹⁾	7.4 kW	mode 3 cable included with purchase	 4hrs 3
standard domestic socket ⁽²⁾	2.3 kW	optional mode 2 cable ⁽³⁾	 13hrs 2
public fast charging point	80 kW	cable attached to the charging station	 40 min
public charging point	22 kW	mode 3 cable included with purchase	 1hr 21

(1) Mobilize Power Solutions offers. For more information about Mobilize Power Solutions, visit www.mobilize-power-solutions.uk or email business@mobilize.com (2) only for occasional use.

(3) depending on version.

* Any additional costs may be incurred through your regional power company/distribution network operator. This will be notified at the survey stage.

Renault Pro+, the specialist brand

You're the expert in your field and at Renault Pro+ we're here to guide you through ours. We're passionate about delivering products and services to move your business forward. So when you choose to partner with Renault Pro+ you can expect:

specialist network

Renault Pro+ Centres have a dedicated commercial vehicle specialist. So whatever you're seeking advice on, there's always someone to help.

business commitment

Come rain or shine, we have a set of commitments in place to help maximise uptime and minimise downtime.

the future today - 100% electric

Renault Pro+ has been building, selling and maintaining electric vans since 2011. So when you're looking to make the switch, you know who to speak to.

a tailored approach

Your vehicles are as unique as your business. That's why we have a programme of conversions to deliver exactly the product you want. From 'off the shelf' conversions to a more bespoke approach. We'll guide you through.

Renault services

3 years warranty

Your vehicle is covered by a warranty package for up to 3 years from date of first registration (unlimited mileage during the first 24 months, followed by a further 1 year limited to a total mileage of 100,000). Your Renault Dealer is able to repair or replace without charge, parts that are found to have a material or assembly defect that is recognised by Renault. The paintwork warranty runs for 3 years and the anti-corrosion warranty for 12 years. The Kangoo E-Tech battery has a warranty of 8 years or 100,000 miles, whichever comes first.

For Warranty Terms and Conditions please visit www.renault.co.uk/warranty

3 years Renault assistance

Should you need it, we'll provide emergency roadside repairs or tow you to the nearest Renault Dealer. This service is available 24 hours a day and is provided for 36 months from the date of first registration (unlimited mileage for first 24 months, then limited to a total of 100,000 miles or 3 years, whichever comes first). Assistance is provided within the UK & Northern Ireland only at roadside, home and includes national recovery and onward travel. Assistance applies to mechanical or electrical defects which are covered by warranty.

For Renault Assistance and Terms and Conditions please visit www.renault.co.uk/assistance

LCV service plans & extended warranties

Renault's LCV Service Plans are the ultimate package to provide care free servicing for your new Renault LCV.

It really is the hassle free way to take care of your Renault and benefits from;

- Inflation Proof Servicing - You know exactly what you'll pay and there are no hidden costs
- Peace of Mind - No matter where life takes you, we'll be there in over 5000 workshops across Europe
- Renault Expertise & Quality - Our highly trained technicians know your Renault inside out

The Renault LCV Service Plan contains Renault services in-line with the manufacturer's service schedule, plus comes with a complimentary vehicle safety check to ensure your Renault is in the best condition possible.

Renault LCV Extended Warranty enhancements also available. Refer to the Price Guide for more details.

service intervals

Kangoo ICE versions: 18,000 miles/2 years

Kangoo E-Tech electric service year: Year 1 / 12,000 miles, Year 2 / 24,000 miles and then every 2 years / 24,000 miles thereafter

Renault Network Services

No-one is better placed than Renault to maintain, fit and repair your Renault, fast. The Renault Minute (maintenance and repair with no appointment necessary) and Renault Rapide Bodycare (bumper scuffs, dings and dents, windscreen, stone chips and interior repairs...) services deliver the highest level of repair and maintenance and offer a full year's guarantee on Original Renault Parts. And don't forget to have a look at our wide range of additional equipment and accessories!

Renault iCare

Renault iCare is an innovative Service, Maintenance & Repair product that supplies Business customers with a fully supported, managed hassle free service and maintenance package.

Renault iCare is a "Pay-As-You-Go" product that insures your vehicle is maintained by Renault technical experts when work is required.

iCare provides the following benefits:

- Full Service, Maintenance & Repair cover in the Renault Dealer Network
 - Tyres can be included within the contract at an additional fixed cost
 - Ancillary equipment can also be included (at an additional fixed monthly cost)
 - Excludes: Damage/Neglect/Abuse/Glass & Bulbs
- A fixed, pre agreed pence per mile rate
- No excess mileage charges at the end of the contract
- No pooled mileage administration
- Minimalise downtime

For more information and to obtain a quote based on your requirements, please speak to your local Renault Business dealer or visit www.renault.co.uk/icare

customer relations

Renault knows the value of communicating with its customers and we have established effective ways to keep in touch with you. If, after speaking to your local Renault dealership, you are not completely satisfied, please contact the Renault UK Customer Relations Team on 0344 3350000† (Mon-Fri 8.00am to 6.00pm, Closed on Bank Holidays. Live Chat Mon-Fri 8.00am to 9.00pm). You can also visit our website www.renault.co.uk or write to us at: Renault UK Ltd, The Rivers Office Park, Denham Way, Maple Cross, Rickmansworth, Hertfordshire, WD3 9YS.

finance options*

There are a wide variety of ways in which the purchase of a new vehicle can be financed. Renault Finance offers all of them, so whether you're a fleet buyer or private buyer, Renault Finance is ideally placed to tell you which plan or combination of plans best suits your needs and circumstances.
